

Process for activating a mailbox message notification in a communications terminal

Patenttinumero: ☐ US5854827
Julkaisupäivä: 1998-12-29
Keksijä(t): MAURER GERALD (DE)
Hakija(t):: SIEMENS AG (DE)
Pyydetty patentti: ☐ DE4415168
Hakemusnumero: US19960732298 19961029
Prioriteettinumero: DE19944415168 19940429; WO1995DE00534 19950418
IPC-luokitus: H04M1/64
EC-luokitus: H04M3/533, H04M3/537, H04M11/04B
Vastineet: ☐ EP0757869 (WO9530299), B1, ☐ WO9530299

Tiivistelmä

PCT No. PCT/DE95/00534 Sec. 371 Date Oct. 29, 1996 Sec. 102(e) Date Oct. 29, 1996 PCT Filed Apr. 18, 1995 PCT Pub. No. WO95/30299 PCT Pub. Date Nov. 9, 1995A number of messages are stored in an electronic mailbox of a communications system. When a call is made to this mailbox, the calling-party subscriber extension call number which is transmitted during the connection set-up is checked for assignment to the stored messages. A mailbox message notification at a communications terminal is activated only if an assignment can be detected. Thus, notification of events is supported via a communications system.
